

Optimum Mortice Sliding Door Lock

ASSA ABLOY

ASSA ABLOY, the global leader
in door opening solutions.

The Lockwood Optimum Mortice Sliding Door Lock has been developed to significantly improve the functionality and features for sliding door applications. The lock features the unique security of a single deadbolt with dual flyout beaks, preventing the door from being lifted. Kits are available with a Palladium Xtra or Palladium styled escutcheon which allows furniture continuity throughout the home.

Features

- Deadbolt locking
- Anti-lift design
- Anti-slam Pin protects accidental damage to throw prior to door closure (DCD)
- LockAlert™ indicator shows at a glance if the door has been deadlocked - with Palladium Xtra escutcheon
- Adjustable Strike
- Stainless steel forend plate
- Can be Keyed alike to other ASSA ABLOY CYL4™ 5-Pin locks for one key convenience
- Achieves Australian Standards AS4145:1993 (Part 2) Security Level S1 and Durability Level D3
- Compatible with a range of Euro Cylinders
- Standard routing details to other Optimum Mortice Locks
- Made in New Zealand

Options

- Available in 30, 35, and 40mm backset
- Retrofittable forend plate available for use where ISEO 7814 is being replaced
- Double cylinder, cylinder and turnknob, half cylinder or half turnknob
