

4BC Series Friction Hinges

Stainless Steel Hinges

A premier range of 4-bar friction hinges (stays) used for the support and frictional control of projecting side hung (PSH) aluminium, timber or uPVC sashes. Manufactured from 304 grade austenitic (non-magnetic) stainless steel, the range caters for the sizes and weights of sashes normally associated with residential or light commercial applications.

Features

- A comprehensive range to cater for most applications
- Non-handed
- Manufactured with the unique “pull-in” feature
- No sliding channels
- Factory set friction levels thus no on-site adjustment necessary
- New Zealand made

Options

- Available in four sizes, designated by the frame plate length, catering for sashes weighing up to 40kg. The selection of which is determined by the sash weight and height (refer chart below)
- Non-friction model for use with window control mechanisms.
